**Sector:** Commercial  
**Client:** Newman & Abel Limited  
**Value:** Undisclosed  
**Completion:** 2011

As part of the refurbishment of the previous Woolworths Big W store, and sub-division into smaller retail units, Technicus Consulting were commissioned to design façade improvements, comprising the introduction of new canopies and checking the existing brise soleil.

The revamped shopfront elevation included the introduction of curved canopy units with hangers from the existing structure incorporating bifurcated brackets to support the canopy units.

The purpose-made bifurcated brackets were designed by Technicus, and provide an aesthetically pleasing support solution to the canopies.
